

Preliminary Amendment

Applicant: Ravi Chandar et al.

Serial No.: 09/895,760

Filing Date: June 29, 2001

Docket No.: 10008058-1 (H302.177.101)

Title: SYSTEM AND METHOD FOR DETERMINING COMPUTER ACCESS WITH ELECTRONIC
PAYMENT MECHANISM

IN THE CLAIMS

Please cancel claims 1-11, and 17-20 without prejudice.

Please add claims 21-26 as follows:

1-12. (Cancelled)

13. (Currently Amended) A selective access computer system comprising:

a computing workstation having at least one software application and at least one
input/output device;

a selective access mechanism for obtaining electronic payment authorization for a user's
financial instrument and for permitting selective access to the computer workstation upon
payment authorization for the user, the selective access mechanism including:

a credit card and bank-issued debit card reader connected to the computing
workstation for obtaining payment authorization; and

a resource tracker configured for determining an amount to be charged to the user
based on at least one of a total amount of time that the computer system is used and a number of
requests to the at least one input/output devices ~~connected to~~ of the computer workstation.

14. (Currently Amended) The computer system of claim 13 wherein the selective access
mechanism ~~computer workstation further~~ comprises:

a desktop user interface to enable access, upon receipt of payment authorization, to at
least one of:

a program monitor configured for ~~permitting~~ enabling selection of the at least one
software application; and

a peripheral input/output monitor configured for ~~permitting~~ enabling selection of the at
least one input/output device.
